

Terre Haute Physical Therapy is now offering FREE SCREENINGS!

A “screening” is a brief, 10-15 minute, assessment to determine if you have any musculoskeletal impairments that need to be addressed. An orthopedic specialist will listen to your concerns and assess for any dysfunctions. We may suggest home exercises and/or give advice on safely managing your condition.

It could be determined that you need a more thorough evaluation with skilled physical therapy techniques. If so, we will set up an additional appointment for you, at which time your insurance will be billed.

Please sign and date below to acknowledge receipt of this information. Please provide your phone number and email address to allow us to have the best and most convenient means of communication. Thank you for choosing Terre Haute Physical Therapy.
